

Four-Week Growth Workshop

An online workshop series for small businesses

Register before August 28, 2020!

Where You Stand

- Is your leadership team performing at 100% of its ability?
- Is your business growing like you want, or are you frustrated by the slow pace of growth?
- Are you running your business, or is your business running you?
- Do you have cash to fuel growth, or are you barely getting by?
- Are you focusing on the priorities that will grow your business, or are you constantly fighting fires?
- Do you have a clear vision of where you want to go and how to get there?

If you can answer "yes" to most of these, congratulations! If, like many, you answer "no" to most of these questions, welcome to the club.

These issues are very common: every growing business runs into growth roadblocks. As it adds more employees and complexity, a business goes through several growth stages, and each requires a different management approach. When a company outgrows its management approach, painful growth roadblocks appear. To make things worse the Covid-19 crisis has often exacerbated these pre-existing issues.

How We Help: A Four-Week Virtual Workshop

Across four weekly 2-1/2 hours virtual sessions, we will share the 7 Attributes for Agile Growth – a proven operating system to help companies navigate the ever changing landscape of business today. Attendees will receive insightful and interactive coaching, practical hands-on exercises and engaging discussion.

As a result you will be able to:

- Adjust your strategy.
- Set it in motion through actionable priorities and an action plan.
